VDE pliers with long rounded grips

N35450 - Long round nose pliers with knurled grip surface, DIN ISO 5745, in special tool steel, polished chrome finish, ergonomic two-material VDE handles, compliant with European standard EN 60900, for use in circuits under voltage up to 1000V in alternating current.

N32015 - VDE long round nose pliers DIN ISO 5745, made of special steel for tools, hardened and oil tempered, chrome-plated head, long and round jaws, finely ribbed gripping surfaces, multi-component plastic handles, for use in live circuits up to 1000 V, according to IEC 60900, DIN EN 60900, VDE 0682 / Part 201.

N32802 - Long round nose pliers with knurled gripping surface, UNI 10294 DIN ISO 5745, in chrome vanadium steel, polished chrome finish, ergonomic bimaterial VDE handles, compliant with European standard EN 60900, for use in live circuits up to 1000V in alternating current.

VDE pliers with long half-rounded grips

N35424 ÷ N35425 - Long half-round nose pliers with knurled grip surface and wire edge hardness approx. 61 HRC, DIN ISO 5745, made of special tool steel, polished chrome finish, ergonomic two-material VDE handles, compliant with European standard EN 60900, for use in live circuits up to 1000V in alternating current.

N32020 - VDE long half-round nose pliers DIN ISO 5745, made of special steel for tools, hardened and oil tempered, chrome-plated head, finely ribbed gripping surfaces, multi-component plastic handles, for use in live circuits up to 1000 V, according to IEC 60900, DIN EN 60900, VDE 0682 / Part 201.

N32804 - Long half-round nose pliers with knurled and sharp gripping surface for wire, UNI 7926 DIN ISO 5745, in chrome vanadium steel, polished chrome finish, ergonomic bimaterial VDE handles, compliant with the standard European standard EN 60900, for use in live circuits up to 1000V in alternating current.
