

### Anchoring sling

Anchor sling (**mod. MJ51**) in galvanized steel with terminal slots for anchoring to beams and I-beams,  $\varnothing$  6.3 mm ropes with protective plastic sheath, also for use with **mod. Falcon** horizontally.

Compliant with standards **EN 795 class B** and **EN 354**.

| Code       | €   | Length (m) |
|------------|-----|------------|
| S551800005 | — ◇ | 1          |

### Anchoring tape

Anchoring tape (**Titan model**), 20 mm polyamide tape, to be used in combination with fall arrest devices for work at limited heights.

Compliant with standards **EN 795 class B** and **EN 566**.

| Code       | €   | Rope length (m) |
|------------|-----|-----------------|
| S551160003 | — ◇ | 0,8             |

### Scaffolding connector

Scaffolding connector for anti-fall systems, compliant with standard **EN 362**.

| Code       | €   | Material | Opening (mm) | Resistance (KN) | Dimensions (mm) | Weight (Kg) | Class |
|------------|-----|----------|--------------|-----------------|-----------------|-------------|-------|
| S552250005 | — ◇ | steel    | 55           | 23              | 218x115         | 0,45        | A     |

### Self-adhesive tape

Self-adhesive warning tape, PVC film with adhesive.

**Use:** to identify the uprights of scaffolding, poles, protruding parts, etc.

| Code       | €   | Colour       | Width (mm) | Length (m) | Thickness (mm) |
