

Clamping equipment with horizontal lever

Horizontal clamping equipment, with U-shaped clamping arm, **with pressure screw included**, horizontal assembly base. Increased safety distance between arm and handgrip.

Features: galvanized and passivated tools, with stainless steel rivets, PVC handgrip, oil resistant.

Use: in all cases requiring restraint forces up to 4500 N for glueing, assembly, drilling, testing, positioning, testing for boring and welding masks.

FIXING AND BRACKETING

Horizontal clamping equipment

Horizontal clamping equipment, with U-shaped clamping arm, **with pressure screw included**, horizontal assembly base.

Features: galvanized and passivated tools, with stainless steel rivets, PVC handgrip, oil resistant.

Use: the very compact construction makes the equipment usable in any condition with limited room available, in all cases requiring restraint forces up to 3.400 N for equipments, assembly, drilling, clampings and positionings.

Code	€	Retaining force (N)	Opening (°)	Weight (Kg)	Pressure screw (MxL)	A (mm)	A1 (mm)	A3 (mm)	B (mm)	B1 (mm)	C (mm)	C1 (mm)	C2 (mm)	ø D (mm)	F (mm)	H (mm)	L (mm)	L1 (mm)	L2 (mm)	L3 (mm)

Clamping equipment with push rod

Clamping equipment with push rod, with additional mounting base and rod with inner thread.

Features: galvanized and passivated tools, with stainless steel rivets, PVC handgrip, oil resistant.

Use: in all cases requiring compression forces up to 400 N for glueing, assembly, drilling, and positioning. The screw has to be ordered separately.
