Digital ruler

Digital rule with liquid crystal display, structure in tempered stainless steel, anodised aluminium fixing supports, precision according to internal standard.

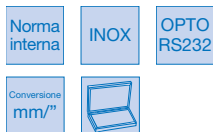

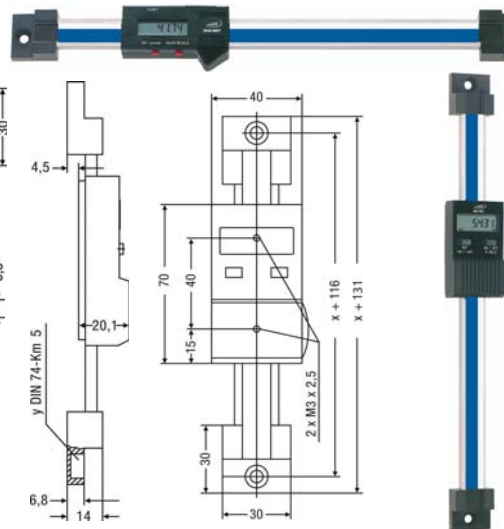

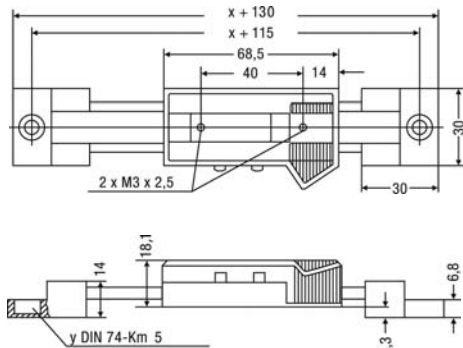

Electronic functions:

- ON/OFF switch
- reset in any position storage of the value measured (Hold function)
- value presetting (+/- Preset function)
- switching between mm/inches

Data output can be interfaced with systems:

- Opto RS232 cable cod. F038700005

Battery cod. F030272032.

DEPTH GAUGES
MICROMETER

Digital micrometer for external use, protection level IP 54

Digital micrometer with LCD display, IP 54 protection level, hard metal measuring faces, steel frame with insulating plates, locknut, friction thimble, precision according to internal standard.

Electronic features:

- ON/OFF switch,
- automatic switch-off,
- re-set in any position,
- mm/inch reading,

Battery code . F030270357
