

TKn Flap rollers in abrasive zirconium canvas

Strip rollers in abrasive zirconium fabric, with strips fixed in radial fan.
Use in grinding, polishing and finishing of flat and contoured pieces, corners and also in situations of difficult access.
For machining of stainless steel.

TKn Flap rollers in fabric no-fabric in aluminum oxide

Strip rollers in aluminum oxide non-woven (red), for masking marks left by previous grindings; to be fitted on electric or pneumatic portable grinders, also with flexible shaft; for grinding, polishing, satin finishing of common and alloy steel, non-ferrous metals.

TKn Flap rollers in fabric no-fabric mixed canvas in aluminum oxide

Strip rollers in aluminum oxide abrasive cloth, alternating non-woven strips, support in cotton X-Flex weight; the canvas makes the roller more aggressive and able to remove from the workpiece's surface the most marked signs: scratches, small scales, etc. Suitable for light frosting, by no vibrations and little noise.
To be fitted on electric or pneumatic portable grinders, also with flexible shaft; for grinding, polishing, satin finishing of common and alloy steel, non-ferrous metals.
