Kit of inserts and torque screwdriver

Kit of inserts and torque screwdriver for the **replacement of cutting inserts** using Torx®, Torx Plus® and hexagonal screws. The **correct clamping of the cutting inserts** prevents damage to the screw and ensures a longer life of the cutting insert, for this reason it is **recommended to tighten the screws with a torque screwdriver**. Supplied in ABS case; inside in two-colored mousse; sizes marked in order to check the content at the end of the operations.
